

OBSTREPEROUS BULL

He Causes a Complete Wreck on the
Great Northern Railway.

AN UNUSUAL STREAK OF LUCK

Very Nearly the Death of Nine Men,
Yet Not One Was Killed.

THE CUMBERSOME SNOW PLOW

Four Men in the Cook Car Badly Shaken
Up Amongst the Splinters—A
Terrible Fright.

SPOKANE, Dec. 14.—Wrecking trains on the Great Northern have just completed clearing the track of one of the most complete and miraculous events in the line of railway wrecks that has yet occurred in the Pacific Northwest. A freight train on the western extension of the Great Northern met with the event Saturday night and it was only due to one of those unusual streaks of luck that nobody was killed. The train, made up of twenty cars and a caboose, left the extreme western extension early Saturday morning, and after passing the eleventh siding the same evening ran into a bunch of cattle, throwing the front trucks of the engine from the track and making almost a complete wreck of four freight cars. Seven other cars were derailed, but not severely damaged.

The engine had taken on a snow plow at Wenatchee and its bulky form greatly interfered with the engineers view of the track. While running along Crab creek, the engineer saw a few yards distant a large herd of cattle crossing the track. He reversed the engine, but before the brakes could be applied sufficiently to slow down the rapidly running train the snow plow struck a big bull broadside and knocked two cows off the track. The first four cars were badly demolished. One of these were the cook car, in which four men were asleep, and it is the greatest wonder that any of them escaped with their lives. The cars were piled up in a heap on the track, and were so badly damaged that they are almost a total loss. The cooking car was jammed in between them, and one end stood almost upright with the sides crushed in.

The sleeping occupants were thrown violently to the end of the car, and three of them were taken out sustaining only a few lacerated legs. The fourth man was under a few light boxes yelling for help. He was taken out with a sprained ankle. The poor fellow was frightened almost to death and it took the utmost coaxing of the crew to persuade him that he had not been killed. Five others, in all nine men, were on the train. Four cars were thrown clear off the track on the north side and three tumbled down the bank on the south side. The caboose and eight rear cars did not leave the track.

FOSSIL LETTER.

Sullivan's Counsel Pronounced "A Very Foolish Fear."

Special to THE CHRONICLE.

FOSSIL, Or., Dec. 12.—The Roslyn bank robbery affair is the subject of the hour and is talked of in every place from the peaceful fireside to the public bar. From the stories in print about George Zachary and others one is very likely to form an erroneous idea of these so-called bank robbers. The story about Geo. Rose being convicted of cattle-stealing and then being simply fined hardly gives due credit to our law-abiding citizens. The jury found Rose guilty all right enough; Judge Bradshaw imposed the sentence. While the general reputation of these men is rather shady we certainly ought to have it said that they ever influenced the administration of justice through fear of them by the officers, either local or county. All agree that Sullivan made a "show" of himself, in bringing a small army to capture these "outlaws." It shows that he took council of a very foolish fear, at any rate.

A. A. Bonney, butcher of The Dalles is out at the Prairie ranch soliciting beef cattle to feed on the company's Tygh valley ranch during the winter.

Bonds for twenty thousand dollars have been raised in the community for the release of Geo. Zachary and Cal. Hale. In fact the people here will be hard to convince that any sheepherder would be likely to have as much as the Roslyn bank robbery certainly was. Zachary and Kimsy both follow herding as a profession.

ANON.

Typhus Epidemic Spreading.
SAN LUIS POTOSI, Mex., Dec. 14.—The death rate is increasing at an alarming rate, owing to the terrible ravages of typhus. The disease seems to be spreading, and the people are alarmed.

Fresh Cases of Cholera.
HAMBURG, Dec. 14.—Four cases of cholera have been discovered in this city since the 12th inst.

A Hunting Exploit.

On Tuesday a hunting party composed of Messrs. W. E. Garretson, Hal French, Deputy U. S. Marshal Jameson, and Railroad Engineer Kelley, left the city for the upper Columbia hunting grounds near Squally Hook, about fifty miles from this place, on a hunting spree for wild geese. They arrived at their destination O. K., and proceeded to build blinds to shield them from the game as it flew past, and after they had fairly secreted themselves comfortably and were ready to open their batteries on the game, up came one of those wind storms which that locality is noted for, and scattered their shelters and the gunners unceremoniously. They went into consultation and decided to cross the river and try their luck on the opposite side, and took a small boat, put their hunting paraphernalia aboard and embarked, determined to have geese or starve. The river was rough when they started, but after they had reached the middle of the stream, which is nearly a half of a mile wide, it was rougher still and the waves ran mountains high. The water was too cold to think of a bath on a December eve, so one of the party, who was more accustomed to the thralldom than the oar, prayed the others to return, which they did, resigned to the ill luck that was theirs. The next thing to do, as it was getting late, was to look out for the train. In due time it came along, and to their chagrin the conductor fondly told them to wait for the passenger train which, unknown to them, was six or eight hours late. They sought a sheltered nook and built a fire and made the best of the situation they could. Tired and hungry they waited and waited until the early morning came, and the delayed train stopped and brought them home yesterday about 9 o'clock a. m., with nary a goose, but a hungry set.

Another Freight Outrage.

An Astoria dispatch today reports another outrageous proceeding of the U. P. R. "system," which occurred at that place yesterday. It says the steamer Homer, of the opposition line, was ordered by the owners of the goods to take on board 6,000 cases of salmon for San Francisco, which have been stored on the Union Pacific wharf for some time. She was notified by the Union Pacific agent at Astoria, that she would have to pay \$500 before being allowed to land. The officers of the Homer refused this demand, and the steamer dropped down to the Main-street wharf. Drays were engaged in moving the salmon from the Union Pacific wharf to Main-street wharf, and the steamer sailed at 4 p. m. The agent's demand was made on the strength of a telegram from Agent Campbell, in Portland.

Chronicle Snap Shots.

Anybody is brave when he knows the people are looking.

Marrying a man to reform him is equal to putting your fingers in the fire to put it out.

The best compliment that can be paid the young is that sensible old people admire them.

After a man marries he no longer hears compliments for himself from the women; they are all for his wife.

Let tomorrow take entire care of itself, and some day the poor commissioner will have to take care of you.

Pray too long for a blessing and you will find that while you were praying some other man went to work and got it.

A man has his own way pretty much on earth, but what a difference there will be in heaven, where the women are more than ten to one. All the men there are in heaven went there when they were little boys in short dresses.

Prepared For Work.

WASHINGTON, Dec. 14.—It is announced that I. N. Day & Co., of San Francisco, who have been awarded the contract at the Cascades for \$1,500,000 will begin work immediately upon the close of the rainy season.

The Grants Pass Courier, is very plain and outspoken. It does not mince matters when it says: Every time a legislature meets it is pestered by some little faction of ambitious office-seekers who wish to cut off some portion of a county in order to create a new set of county officers, the projectors of course, expecting to "stand in." As the complement of state senators is full, according to the state constitution, any new counties cut off in future must slice up their senatorial representation. But there are counties enough now. There is no sense in splitting up every few townships into a new county just to please would-be paupers. Of course, the next session of the legislature will have to be bored by these propositions from various parts of the state, but it is not likely that schemers will succeed. All fair-minded citizens who have the states best interests at heart, will agree that our population is even yet too sparse for proper support of the counties now in organization. There should be a marked increase in our population and wealth before we cut off any more counties in Oregon.

Those wishing to see the celebrated Stoddard Art Souvenir call on Mr. Hughes at the store of Crandall & Burgett. We are pleased to show it to everybody whether you buy or not. Terms to suit everybody.

CONGRESS JUGGLING.

An Interesting Letter—The Situation
in Washington.

SHERMAN'S SILVER BILL DOOMED

The National Quarantine to Restrict
Immigration Will Pass.

APPROVED BY THE COMMITTEE

Senators Kyle and Peffer Expecting
to Act With the "Unknown
Quantity."

Special to THE CHRONICLE.]

WASHINGTON, Dec. 10.—Congress is jogging along very quietly, careful of making any breaks. The republican members feel that it is not for them to propose, and the democrats feel the necessity for going slow on anything new, and they appear to be in doubt about some things that are not new. The republicans say the democrats are waiting to ascertain Mr. Cleveland's wishes before showing their hands.

There is at least one thing upon which the Cleveland democrats and the Hill democrats appear to be in perfect accord. That is the repeal of the Sherman silver law. Senator Hill has himself introduced a bill in the senate for its repeal, and a similar bill has been introduced in the house by Representative Williams, of Massachusetts, who is one of the most ardent admirers of Mr. Cleveland in congress. The introduction of these bills indicates that the democrats expect nothing to be accomplished by the International Monetary conference, and they are not alone in that expectation.

If the talk of members is any indication it seems safe to predict that President Harrison's recommendations concerning a further restriction of immigration, and the establishment of a national quarantine, will be acted upon at this session. A bill has been introduced in the house by a democrat, to provide for a national quarantine, and one in the senate by a republican to suspend immigration one year from next March. This last bill is approved by both senate and house immigration committees, and will also be introduced in the house, so that it can be pushed without any unnecessary delay.

Senators Kyle and Peffer appear to be fully alive to the importance of their votes in the organization of the senate of the 53d congress, and neither of them will give the slightest indication of which party they intend to vote with in the organization of the senate. It is apparent, however, from their conversation that they expect, with other third party senators yet to be elected, to hold the balance of power in the next senate, and that their intention is to insist upon certain concessions from the party that gets their votes.

Secretary Foster's annual report, in which he shows, to his satisfaction, that there should be a surplus, instead of the predicted deficit, for the fiscal year ending June 30, 1894, is not as comforting as one would have supposed such information would be to the democrats who are now engaged in preparing the bills carrying the appropriations for that year, which must be passed by the present congress, for the very simple reason that they do not accept the secretary's figures.

In a quiet way the speakership of the next house is already exciting considerable interest, and if it shall soon be apparent that Representative Hooker's bill changing the time for congress to meet from December to March stands a good chance of becoming a law at this season, that interest will become all-absorbing. Mr. Crip is the only avowed candidate, and he has the advantage of possession; but there are four gentlemen; Wilson of West Virginia; Bynum of Indiana; McMillan, of Tennessee, and Breckenridge of Kentucky; any one of whom may become a competitor, with the backing of Mr. Cleveland.

BATES.

A Bean of 1829.

When grandpa went a-wooling,
He wore a satin vest,
A trail of running roses
Embroidered on the breast.
The pattern of his trousers,
His linen, white and fine,
Were all the latest fashion
In eighteen twenty-nine.
Grandpa was a fine-looking young fellow then, so the old ladies say, and he is a fine-looking old gentleman now. For the past score of years he has been a firm believer in the merits of Dr. Pierce's Golden Medical Discovery. "It renewed my youth," he frequently says. "It is the only blood-purifier and liver invigorator guaranteed to benefit or cure, or money promptly refunded. It cures liver, disease dyspepsia, scurfulness, skin eruptions, and all diseases of the blood. For lingering coughs and consumption (which is lung-scurf) in its early stages) it is an unparalleled remedy.

The Dalles Markets.

Thursday, Dec. 15.—The week has been a repetition of the former in trade, absolutely lifeless. The near approach of the holidays has propped some little activity in that line of business. The notions stores have made a fine display, as also have those who deal in jewelry and such goods, for Christmas and New Year remembrances. Other than this there is nothing doing.

The market for produce continues unchanged. One firm received today 125 sacks of potatoes from below, and other dealers are receiving more or less daily from the same source. The reason for this is our farmers are holding for better prices, and decline to bring them in. This may be wise and it may not.

The egg and poultry market is stationary, as is the butter. There are no changes in prices in anything but apples which have advanced. Portland quotations are \$2.00 per box for prime that are clear of dry rot or codlin moth.

The mild weather does not help the hay market, and offerings are more than purchases, and prices are weak with no indication of better late in the season. Oats are quite abundant and prices remain the same. Barley has advanced slightly, 75 to 80 cents is offered for clean and good.

The grain market is weaker. Foreign markets are dull, and nearly lifeless. Some believe there will be a change for the better after the holidays are over, and then an advanced will be realized. Present home quotations have certainly reached the bottom; 63 cents for Walla Walla in Portland is bottom, and sellers are storing rather than let their holdings go. In The Dalles, prices range from 62 to 60 cents, and but little changing hands at those figures.

Portland quotes valley wheat at \$1.17, Walla Walla at \$1.12 to \$1.10 per cental.

The Dalles market is steady at 60 to 62 cents per bus. for No. 1, and 57 to 59 cents per bus. for No. 2 and No. 3.

BARLEY.—The market is nearly lifeless in barley, prices are down to 70 and 75 cents per 100 lbs.

OATS.—The oat market is stiff and offerings are light at \$1.25 cents per 100 lbs. Rye 75 cents per bushel.

MILLSTUFFS.—Bran and shorts are quoted at \$18.00 per ton, middlings \$22.50 to \$23.00 per ton. Rolled barley, \$23.00 to \$24.00 per ton. Shelled corn \$1.25 per 100 lbs.

Flour.—Salem mill flour is quoted at \$5.50 per barrel. Diamond brand at \$5.90 per bbl. per ton and \$4.00 per bbl. retail.

HAY.—Timothy hay ranges in price from \$12.00 to \$15.00 per ton, according to quality and condition. Wheat hay is in full stock on a limited demand at \$10.00 to \$12.00 per ton. There is no inquiry for oat hay, and prices are off. Alfalfa hay is not much called for, and is quoted at \$10.00 to \$12.00 per ton. These quotations are for baled hay exclusively.

BUTTER.—Fresh roll butter is in fair supply at 30 to 35 cents per roll, in brine or dry salt we quote 40 to 45 cents per roll.

EGGS.—The egg market is short in supply and good fresh eggs find ready sale at 30 cents per dozen cash.

POULTRY.—There is a fair demand for fowls for a home market and for shipment to Portland. Chickens are quoted at \$2.00 to \$3.50 per dozen; turkeys 8 to 10 cents per lb.; geese 7 to 8 cents per lb., and ducks 3 to 5 cents per dozen.

BEEF & MUTTON.—Beef cattle is in moderate demand at \$1.75 per 100 weight gross to \$2.25 for extra good. Mutton is held at an advance of last years prices and is quoted at \$3.50 to \$5.00 per head. Pork offerings are light and prices are nominal at 4 to 4 1/2 cents gross weight and 5 cents dressed.

STAPLE GROCERIES.

COFFEE.—Costa Rica, is quoted at 22 1/2 c per lb., by the sack. Salvador, 22c. Arabica, 25c.

SUGAR.—Golden C, in bbls or sack, \$5.00; Extra C, \$5.10; Dry granulated \$6.00; In boxes, D. G., in 30 lb boxes, \$2.00. Ex. C, \$1.85. GC \$1.75.

SYRUP.—\$2.00 @ 75 per keg.

RICE.—Japan rice, 6 1/2 @ 7c; Island, rice, 7 cts.

BEANS.—Small whites, 4 1/2 @ 5c; Pink, 4 1/2 @ 5c per 100 lbs.

SALT.—Liverpool, 50lb sk, 65c; 100lb sk, \$1.10; 200lb sk, \$2.00. Stock salt, \$1.00 per ton.

DRIED FRUITS.—Italian prunes, 12c per lb., by box. Evaporated apples, 10c per lb. Dried grapes, 9 @ 10c per pound.

VEGETABLES AND FRUITS.

POTATOES.—Peerless, Buffalo whites, Snowflake and Burbank seedlings quoted at \$1.25 per 100 lbs.

ONIONS.—The market quotations for A 1 onions is \$1.50 per 100 lbs.

GREEN FRUITS.—Good apples sell for 85 @ 1.25 per box. Fall and early winter pears are quoted at 60 @ 75c per box.

HIDES AND FURS.

HIDES.—Are quoted as follows: Dry, 6c lb; green, 2 @ 2 1/2; cattle 4c lb.

SHEEP PELTS.—60 @ 65 ea. Deerskins, 20c lb for winter and 30c for summer. Dressed, light \$1 lb, heavy 75c lb. Bearskins, \$1 @ \$1.50 ea; beaver, \$2.50 lb; otter, \$4; fisher, \$5 @ \$5.50; silver gray fox, \$10 @ \$25; red fox, \$1.25; grey fox, \$2.50 @ \$3; martin, \$1 @ \$1.25; mink, 50c @ 55c; coon, 35c; coyote, 50c @ 75c; badger, 25c; polecat, 25c @ 45c; common house cat, 10c @ 25c ea.

Wool.—The market is reported off on wool, and is quoted at 10 @ 15c lb.

Undisputed Authority.

The United States Dispensary says that "Onions are a stimulant, diuretic and expectorant; they increase the appetite and promote digestion." The recipe made into syrup as in Dr. Gunn's Onion Syrup, has a specific action on the Throat, Lungs and air passages, it not only cures Coughs, Colds, Croup and Consumption, but its stimulating effect, strengthens and builds up the system afterward. As a tonic and restorative it has no equal. We solicit a trial in the most chronic and stubborn cases. Price 50 cents. Sold by Blakeley & Houghton, druggists.

BOEN.

In The Dalles, Dec. 13th 1892, to the wife of H. C. Nielsen, a son.

Associated After Seven Years.

About seven years ago the village of Forest City, Pa., was excited over the mysterious disappearance of William Doolittle. One morning William left the house to buy some meat for dinner. During the forenoon the meat was brought to the house by the butcher, but William failed to appear when dinner time arrived. Months went by, but no trace of him could be found. Every one thought that he had been foully dealt with.

Saturday afternoon Doolittle arrived in Canondale, after an absence of over seven years. His mind had become deranged. The past was a blank to him, except at two or three intervals, when he could for a short time remember something of his house and family. Four years ago he found himself in Omaha, and then for the first time in three years remembered his name and that he had left his home in Forest City to buy some meat for dinner. He could not recall anything that occurred after he bought the meat. His wife and two children, who live in Canondale, greeted him as one from the dead. He left Omaha four years ago, and has been on the road working his way homeward ever since. —Philadelphia Times.

A Bowsy Scheme.

"Here you are now, warm your hands—only a penny—warm your hands, everybody—nice warm fire here for a penny." The cry was a little out of the ordinary, even on the Bowery.

A youngster of say twelve years, of no telling what nationality, had inaugurated a unique business venture. It consisted of a big iron pail filled with live coals, arranged to conveniently toast one's cold fingers by, and the young inventor charged "a penny a warm."

"Isn't this something new, Jimmy?" inquired the reporter, after having paid the required fee.

"Yaaa, I gpe. Dis is my first night at de racket, and dey ain't much in it. I only got in seventeen cents since 3 o'clock. Ain't many as catches onto it at first."

"Is it your own scheme?"

"Yaaa. Ye see Gippy, the chestnut roaster on the corner here, is always been sore on de chumps wot stop and warm der dukes at his fire, so I got an outfit and now Gippy sends 'em all over here to me. But dey ain't much in it." —New York World.

Extravagance in Smoking.

Nestor Giannacis is a bright young Greek who some years ago moved to Cairo and engaged a small army of dark skinned men, women and children to make cigarettes for Americans to smoke.

Mr. Giannacis is said to be the best judge of tobacco in the world. Last year 2,500,000 of his cigarettes passed through the Boston custom house and during one month 150,000 have been entered there. These cigarettes pay a duty of four dollars a pound and are sold at five cents apiece or forty cents for a box of ten cigarettes.

By actual experiment it costs one-half a cent a minute to smoke an Egyptian cigarette, which makes them probably the most expensive thing in the smoking line. —Boston Herald.

Boston Gets an Egyptian Antiqua.

The red granite column from the remains of the temple at the site of the Biblical Hanes, in Egypt, procured by the Rev. Dr. W. C. Winslow, of the Egypt exploration fund, from the excavations, has just arrived at the Museum of Fine Arts. The capital is an exquisite palm leaf design, and the total weight is from six to seven tons. Only the British museum has so fine a column among its treasures. —Boston Advertiser.

Manning and Simons.

It is worth noting as a curious coincidence that Cardinal Manning and Simons were called to the cardinalate on the same day in 1875 and died on the same day in 1892. Furthermore, the last official letter written by Cardinal Manning a few days before his death was addressed to Cardinal Simons, the late prefect of the propaganda. —Pall Mall Gazette.

Liked His Books.

Physicians and sufferers from the grip may find a useful hint in the announcement that at a recent reception given to Rudyard Kipling, in Melbourne, a sweet young thing approached the author with this flattering remark: "Oh, Mr. Kipling, I feel so proud to have met you. When I had the influenza, your books were the only things that did me any good." —Exchange.

Coins Under a Glacier.

About 1887 a horseshoe was found under the ice of the glacier Theodul, in Switzerland, which led geologists to the idea that this pass, 3,322 meters high, was formerly not imbedded in ice. This has been further confirmed by a recent find of coins bearing the likenesses of Augustus and Diocletian. —Popular Science News.

An ingenious mail box has been offered for the approval of the government. It is operated by a timeclock, which automatically displays a card announcing when the next collection will be made. It also stamps upon each letter as it drops in the very minute when it was placed in the box.

A woman in Asbury Park, N. J., is said to be in a dangerous condition through being poisoned by inhaling smoke from a cook stove filled with green wood. It is thought that the wood in the stove was covered with some poisonous vine or fungus.

Two neighbors in Stamp Creek, Ga., had a dispute about a couple of geese, and the matter was brought to court. After the costs had amounted to seventy dollars, the disputants compromised the matter by each taking one of the fowls.

There's a queer state of things in Richmond, Me., where a Society for the Prevention of Cruelty to Animals has been organized, but nobody will act as its agent.

The solution of the problem of converting coal directly into electricity, which is being grappled with by some of the first inventors of the day, is estimated to mean the opening up to mankind of benefits equal to twenty times those following in the wake of the steam engine. An electrician who has faith in the ultimate success of the problem, says that an electric locomotive, carrying its own supply of coal and generating its own electricity, would be able to haul a train of cars from Boston to New York in less than two hours. Furthermore, the machinery of our great manufacturing, which now require to move it power equal to the labor of 2,000,000 men, could then be operated for one-twentieth of the present cost.

Liver Complaint—Billsoues.

The chief symptoms of this disease are depression of spirits, foul coated tongue, bad tasting mouth, disagreeable breath, dry skin with blotches and eruptions, sallow complexion and yellow eyes, tired aching shoulders, dull pain in right side, faintness, dizziness and irregular bowels. This complaint in all its forms can be readily cured by taking Dr. Gunn's Improved Liver Pills as directed, and a lingering spell of sickness will often be warded off by their use. Sold at 25 cents a box by Blakeley & Houghton, druggists.

Immigration will effect the ruin of this country socially and politically if longer allowed to go on unrestricted. An immigration law with proper restrictions should be passed at once. Many would favor abolishing immigration altogether for a year or two at least, and then to allow only persons with means to enter this country. Too many paupers have been unloaded here in the past.

Besides working the U. S. land office into a muddle, Harbison has worked nearly every one in The Dalles into a fever of bitter hatred of himself. He has contracted bills he will not pay; moved the land office from one street to another; bought a flag, and asked the public to pay for it; raised a pole for it on credit; and has generally put on more dog than a Washington city "lunch-friend" at a Chesapeake watering place. It is time for him to get out, before somebody aggravates the muddle by taking the value of an unpaid bill out of his sneaky hide.

We but echo the sentiments of the democracy when we say that no more suitable man can be found in Oregon to fill the place of U. S. Marshal for this district than our townsman Col. J. B. Crossen, the present efficient clerk of Wasco county. We would not damage his prospects for the place by suggesting the thought, but may be permitted to state that his appointment would give perfect satisfaction to all parties where he is best known, and we are pleased to learn that he has an excellent endorsement for the office.

A Sure Cure for Piles.

Itching Piles are known by moisture like perspiration, causing intense itching when warm. This form as well as Blind, Bleeding or Protruding, yield at once to Dr. Boasanko's Pile Remedy, which acts directly on parts affected, absorbs tumors, allays itching and effects a permanent cure. 50 cents. Druggists or mail. Circulars free. Dr. Boasanko, Philadelphia, Pa. Sold by Blakeley & Houghton, druggists.

SHERIFF'S SALE.

By virtue of an execution and order of sale, issued out of the Circuit Court of the state of Oregon, for the county of Wasco, to me directed in the suit wherein J. A. Guilford is plaintiff and William A. Hanna and Elsie Hanna are defendants, commanding me to levy upon and make sale of those certain pieces and parcels of land in Wasco county, state of Oregon, known and described as the east half of the northeast quarter, and the north half of the southeast quarter of section thirty-four (34) in township one (1) north of range fourteen (14) east of the Willamette meridian, containing one hundred and sixty acres, I have this day levied upon said land, and on Saturday, January 21st, 1893, at the hour of 2 o'clock p. m. of said day, in front of the court house door, in said county and state, I will sell said land at public auction to the highest bidder therefor.

T. A. WARD,
Wit. 20 Sheriff of Wasco County, State of Oregon.

NOTICE: SALE OF CITY LOTS.

Notice is hereby given that by authority of ordinance No. 287, which passed the common council of the city of Dalles, Oregon, on the 10th day of July, 1892, entitled "An ordinance to provide for the sale of certain lots belonging to the city of Dalles, Oregon," it is hereby ordered that the sale of the lots and parts of lots situated in the Addition to Dalles City, Wasco county, Oregon, not heretofore sold, as previously advertised.

Each of said lots will be sold upon the lot respectively and none of them shall be sold for a less sum than the value thereof as above stated.

One fourth of the price bid on any of said lots shall be paid in cash at the time of sale, and the remainder in two equal payments on or before one and two years from the date of such sale, respectively, with interest on such deferred payments at the rate of ten per cent per annum, payable annually. Provided that payment may be made in full at the time of such sale at the option of the purchaser.

The sale will begin at the hour of ten o'clock a. m. of said day and will be continued from time to time until all of said lots shall be sold.

Dated this 15th day of November, 1892.

FRANK MENEFEE,
Recorder of Dalles City.
